**CONTROLS &  
ACCESSORIES**

*New England Electrical Sales has everything you need for a successful snow melting, or radiant floor warming system. We offer solutions to about any situation you're going to run into, and most importantly, the experienced staff to help guide you with technical engineering and installation support. In addition, we also offer site visits, pre-install meetings and presentations (online and in person), and start up commissioning services depending on application and location.*

### MULTI-CIRCUIT CONTROLS

Breaker integrated  
Contactor Relays  
WiFi Enabled

### SINGLE-CIRCUIT CONTROLS

Budget-friendly fixed sensor  
GFI/non-GFI enabled  
Roof, Pavement, Pipe  
Digital or bi-metal

### REELS & CUT-TO LENGTH CABLES

250, 500, 1000'  
Self-Regulating  
3,5,6,8,10,12w/ft.  
Constant Watt 4,8,12w/ft.

### ACCESSORIES & SENSORS

Power Connection boxes  
Splice kits and end seals  
Roof clips, adhesives & labels  
Roof & Gutter  
Pavement/ariel  
4 and 6 wire

### SNOW MELT MATS & CABLE

38-50 watts sq ft.  
Std. widths 18", 24", 36"  
Std. lengths 5, 10, 15, 20'  
208V, 240V, 277V, 480V

### PRE-FABRICATED SNOW MELT MATS

Auto reset GFI cord set  
Std. widths 24", 36"  
Std. lengths 5, 10, 15, 20'  
120V, 208V, 240V
