PS304	Data Com Cable Staple	Category 5, 4 Pair 24-Gauge Cable	Paper, Pail	100/500/1000

Plastic Staples

Product	Item	Application	Packaging	Count
PS301	1/2" Plastic Staple	Secures 14-2, 12-2 w/ ground	Paper, Pail	100/500/1000
PS302	3/4" Plastic Staple	Secures 12-3, 10-3 w/ ground	Paper, Pail	100/500/750

RG-6 Co/Ax Staples

Product	Item	Application	Packaging	Count
PS308	RG-6 Co/Ax	Secures RG-59, RG-6 Co-Axial Cable and other Non-Metallic Cable up to 1/4" Diameter	Clear Plastic Jar, Blister Pack, Plastic Bag, Paper, Pail	50/100/250 /500/1000

Small Wire Staples

Product	Item	Application	Packaging	Count
PS303	1/4" Small Wire Staple	Thermostat, Telephone, Bell Wire or any Non-Metallic Cable up to 1/4" Wide	Paper, Pail	100/500/2500

Performance Series Wire Clips and Conduit Straps are designed specifically to meet today's pressing contemporary challenge — finding a cost-efficient way to effectively and securely install delicate cables and cable bundles. Created using a high quality polyurethane compound, these Performance Series products from W. W. Cross eliminate concerns about deterioration from corrosion. Plus, they are designed to virtually eliminate costly problems associated with pinching, crushing or otherwise rendering cables and cable bundles ineffective. Efficiently secured using either one or two nails, Performance Series products are available in a variety of packages creating economical quantity purchase opportunities.

W. W. Cross is pleased to announce significant expansions to our highly acclaimed collection of insulated staples. We are continually delivering new styles specifically designed to reduce the potential of arc faults and protect delicate fiber optic and data cables in structured wiring applications. Our new insulated staples feature uniquely engineered advantages that can help professionals avoid problems commonly caused by over-driving staples – the leading cause of arc faults. And they are sized right to prevent cutting into electrical insulation – a problem caused by using staples that are too small.

Among our newest innovations are our “Fat Man” insulated staples, developed for applications that require larger sizes of insulated staples for a wider range of cable sizes. Fat Man staples also help reduce the risk of arc faults. Our IN 3000 staples, long preferred throughout the industry, have been improved with larger diameter wire and flat legs that drive easier and hold tighter. Plus, IN 3000 staples now have new high visibility red insulators.

Viking premium staples are preferred by demanding professional contractors worldwide. Designed with flat legs and heavier wire, Viking staples are easier to drive, hold tight and resist bending.

When optimal economy is required, choose our Cross brand staples. These lighter-weight styles still provide impressive quality, sharing many of the advantages of our famous Viking brand.
